- <---- 1. When I make things while I am learning, I remember what I am learning better.
- <---- 2. Written assignments are easy for me.
- <---- 3. I learn better if someone reads something to me than if I read the same thing silently to myself.
- <---- 4. I get more done when I work alone.
- <---- 5. I remember what I have read better than what I've heard.
- <---- 6. When I answer questions, I can say the answer better than I can write it.
- <---- 7. When I do math problems in my head, I say the numbers to myself.
- <---- 8. If I need help in learning something, I am likely to ask one or more of my fellow learners or someone else for help.
- <---- 9. I understand a math problem that is written, better than one I hear.
- <---- 10. I don't mind doing written assignments.
- <---- 11. I find it harder to learn from printed materials than when I am told something.
- <---- 12. I like to work by myself.
- <---- 13. I would rather read a story than listen to it.
- <---- 14. I would rather show and explain how a thing works than write about how it works.

- <---- 15. **Saying something over and over to remember it works better for me than writing it over and over.**
- <---- 16. **I like to work in a group because I learn from others.**
- <---- 17. **When I hear a number said, I really don't understand it until I see it written down.**
- <---- 18. **Writing down an item several times helps me learn it better.**
- <---- 19. **I find it easier to remember what I have heard than what I have read.**
- <---- 20. **I learn best when I study alone.**
- <---- 21. **When I have a choice between listening or reading, I usually read.**
- <---- 22. **I feel like I talk smarter than I write.**
- <---- 23. **When I am told how to find something, I can remember it without writing it down.**
- <---- 24. **I get more work done when I work with one or more people.**
- <---- 25. **Written math problems are easier for me to solve than spoken ones.**
- <---- 26. **I like to do things with my hands, like simple repairs or manipulating things.**
- <---- 27. **The things I write sound better when I say them.**
- <---- 28. **I learn/study best when there is no one around to talk or listen to.**
- <---- 29. **I do well in learning situations when most of the information has to be read.**
- <---- 30. **If learning assignments were oral, I would find them easier to do.**
- <---- 31. **When I have a written math exercise to do, I say it to understand it better.**
- <---- 32. **I can learn more about something if I am with a small group of learners.**
- <---- 33. **Seeing numbers makes more sense to me than hearing them.**
- <---- 34. **I like to make things with my hands.**

- <---- 35. I like tasks that make me complete a sentence or write down the result.
- <---- 36. I understand more from a group discussion than from reading about a subject.
- <---- 37. I learn better by reading than by listening.
- <---- 38. I would rather tell a story than read it.
- <---- 39. It makes it easier to work out a math problem when I say the numbers to myself.
- <---- 40. I like to study with other people.
- <---- 41. It is easier for me to understand the price of something when it is written down, rather than told to me.
- <---- 42. I understand what I have read better when I am involved in making something.
- <---- 43. The things I write down sound better than when I talk about them.
- <---- 44. I do well with tasks if they are activities I hear about.
- <---- 45. I think better when I work alone than when I work with someone else.
